

Smart Solutions for **Copying**

6255 Copier Controller Pre-paid Disposable & Revaluable Cards

Product Application

The 6255 copier unit is a versatile magnetic card operated system, which can be interfaced to any make of photocopier or laser printer to provide an organization with a means of selling copies.

Functional Overview

The 6255 copier unit accepts both disposable cards and slim cards. Disposable cards contain a cash value or a number of copies and when exhausted, the card is simply thrown away and a new one purchased.

Depending on the site requirements, revaluable slim cards may also be issued. In the case of slim cards, when the value is exhausted the card may be revalued. An authorized member of staff can add value to the card at the copier unit itself or the user can visit a self-service Absec Card Centre, which converts cash into value on the card.

Absec ➤

The 6255 has four price lines, which facilitates charging for four different paper sizes. A special Audit Card provides access to the following information:

- Total number of copies taken by priceline
- Total number of external and override copies taken by priceline
- Total amount of cash and units deducted from card
- Total amount of cash and units added to cards during revaluations

Features

- 4 Pricelines
- Cash Card / Unit Card Acceptance
- Disposable Card / Thin Plastic Revaluable Card Acceptance
